Progress in this information age depends largely on frontline knowledge/information gained by educationists, technologists, engineers and scientists and library plays a key role in dissemination of information. The flood of literature, shrinking resources, escalation of prices has made it impossible to get all information at individual level. So, at this stage, the library comes to the rescue to its users. Central library of the Technical Campus has an adequate number of books to meet the present requirements of the students and staff in the subjects and fields of the ongoing courses. Around **7600 titles**, **30,000 text- books** and reference books, **53 International/ National Journals**, **275 e-journals** have been procures in various streams of science, Engineering, Management & Humanities. For topical awakening of students and staff, it subscribes to **9 Local and National Newspapers**, **26 Serials/periodicals** and covering all fields of Engineering and Management. It also subscribes e-journals detail of which is as fallow. The central library has **1175 sqm** of area.
